54) Please record

Accts 19-3-43 for 1943

55) When tenders were called for, for improving the the Submain No 8 with its Connected Street Sewers in the city, Messrs R A Rajagopal & N Shama Rao, submitted their tender agreeing to take up the work for Rs 1,54,727-2-0 and the Dr of P Health submitted the tender to Govt with his recommendation for its acceptance. Subsequent to this, the Dr of P Health sent a letter received from

"P" the Contractors praying that they may be allowed 20% over & above the tendered rates for the Pipe line work As advised by the Chief Engineer, the Dr of P Health was requested in his office letter No L

"Q" 11113/Mc 90-41-28 Dy 21-5-42 to ascertain & intimate if the Contractors are agreeable to the condition of the contract being accepted with the promise of the difference

Serial No	
	of rates on the pipes, specials & hemp as they stood at the time of submission of tenders & the time of acceptance of tender being paid to them
	56) The Dr of Health in his letter
"W"	Dt 7-10-42 stated that the Contractors are agreeable to the above proposal and also recommended the payment of the difference on the manhole covers also the proposals
	of the Dr of Health were sanctioned
"X"	in Govt No L 4734-7/Mil 90-41-34 Dt 12-11-42.
	57) Subsequent to the passing of the Govt order Dt 12-11-42, the Dr of Health
"Y"	wrote to Govt saying that the difference in rates for manhole covers need not be paid to the Contractors on the ground that only ordinary rates are being paid to the other Contractors for similar work in the same locality & thus forwarded Govt from incurring an excess expenditure of Rs 11,040/-
	Thereupon the Dr of Health was requested in this office letter No L6050
"Z"	Mil 90-41-36 Dt 15-12-42 to obtain & forward the explanation of the then Special Officer Mr. Seshadri Iyengar for having recommended the payment

Subject - Explanation of Mr N R Seshadri Iyengar, Executive Engineer, in connection with the grant of higher rates for certain Drainage Works in Bangalore City

- - - -

In connection with the execution of certain improvements to the Sub main No 8 and its connected street sewers in Bangalore City, Mr N R Seshadri Iyengar, Special Officer, City Drainage Division, Bangalore, recommended among other matters, the grant of higher rates to the Contractors viz Messrs R A Rajagopal and M Shama Rao for the manhole covers required for the work The Director of Public Health recommended the proposal to the Govt & the same was sanctioned in G O dated 12-11-1942 The Director subsequently pointed out that this proposal involves the payment of about Rs 30 per manhole cover, involving an aggregate excess expenditure of Rs 1110 to Government and that the higher rate need not be paid, as the other contractors are paid only at ordinary rates for similar work in the same locality Therefore Mr Seshadri Iyengar's explanation was called for as to why he made the recommendation to pay higher rate He has stated that the contractors asked for a higher rate for the covers as there was a scare that the price of iron articles would go abnormally high and that, as this was the only tender for the work, in the absence of other tenders for the work, it was not possible for him to compare rates He has added that the prices having subsequently gone down contrary to expectations, it was possible to reduce the rates

Haq ×

The Director of Health reported that no extra amount has been paid to the contractors and that the Executive Engineer may be excused with a warning in the circumstances explained by him

Explanation of Mr N R Seshadri Iyengar

26

The Chief Engineer who was consulted on the above explanation has stated that there were no grounds recommending the payment of enhanced sufficient ~~grants~~ for ~~the enhancement of the~~ rates for the manhole covers and that the officer failed to realise his responsibility and that a severe warning to be more careful in future be administered to him

The Minister for L S G & P W while agreeing with the Chief Engineer's view has expressed ~~ordered~~ that the next increment of Mr N R Seshadri Iyengar be deferred for 3 months The Minister P W D has agreed with the Minister for L S G and the Dewan has ordered that the question may be disposed of by circulation

Final Note by the Minister for Local Self Government and Public Health

Subject — Deferring the increment of Mr N R Seshadri Iyengar, Executive Engineer

On the recommendation of the Director of Public Health, Government sanctioned in their ~~Government~~ Order dated 12th November 1942, the grant of enhanced rates to the contractors, R A Rajagopal and N Shama Rao for the manhole covers forming part of certain improvements to the sub-main No 8 and its connected street sewers relating to the Bangalore City Drainage The Director subsequently reported that the rates sanctioned for the manhole covers were found to be much higher than the rates which were being paid for similar work in the same locality and that the payment of higher rates would involve unnecessary loss of Rs 11,040/- to Government The sanction for higher rates was thereupon immediately withdrawn and the explanation of the Special Drainage Officer, Mr N R Seshadri Iyengar who was responsible for the recommendation of enhanced rates was called for Both the Director of Public Health and the Chief Engineer were not satisfied with the explanation of the officer (The Chief Engineer has observed that there were no sufficient grounds for recommending the payment of enhanced rates for the manhole covers, that Mr Seshadri Iyengar should have made local enquiries for similar works under execution before recommending enhanced rates and that he has failed to realise his responsibility) He recommended that a severe warning might be administered to Mr Seshadri Iyengar to be more careful

I consider the punishment proposed by the Chief Engineer is very lenient and propose that Mr Seshadri Iyengar's next increment may be deferred for three months The Dewan and the other Ministers agree with me and I solicit the gracious sanction of His Highness to the same

Bangalore,

Tenders for improving Submain No 8 with its connected street sewers etc , Bangalore City - Estimate of Rs 2,25,000/-

Adverting to C O No L 3422-26/Ml 90-41-4 dated 1st November 1941 sanctioning the comprehensive scheme in connection with the Bangalore Drainage, I have the honour to state that tenders were called for the above work by the Special Officer and only one firm viz , Messrs R A Rajgopal and M Bhama Rao have tendered for the work for Rs -- Rs 1,54,727-2-0 vide comparative statement and tender enclosed in original

The tendered cost is in excess of the estimated cost The Special Officer reports in his letter No 204 dated 4-4-42 (copy enclosed) that the estimate will be revised later on with reference to the tendered rates and also with reference to quantities as per actual execution

I request you to be so good as to obtain and convey orders of Government to the acceptance of the tender of the above firm The cost will be met partly out of the Government grant under 30 Grants (1), for the current year and also next year and partly out of the Municipal contribution given for this work

I have the honour to be,
Sir,
Your most obedient servant,
O Parthasarathy

Letter No 204 dated 4th April 1942 from the Special Officer (in charge), Bangalore City Drainage Division, Bangalore, to the Director of Public Health in Mysore, Bangalore

--

I have the honour to state that in response to Gazette notification dated 19th March 1942 inviting tenders for " Improving submain No 8 with its connected street sewers etc , Bangalore City" only one tender was received although as many as five contractors as noted in the margin had bought the printed tender forms A statement showing the tendered cost compared with the estimated cost is herewith submitted for kind perusal

1 Messrs Arumugam Nagarthanam & Co ,	The estimate was prepared over two years back, since then there have been appreciable fluctuations in the market rates of goods due to war conditions and this accounts for the tendered cost being slightly in excess of the estimated cost, as the contractors have quoted their rates with reference to the present conditions in the market The estimate will be revised later on with reference to the tender rates and also with reference to quantities as per actual execution
2 " M Coomaraswamy Pillai & Co ,	
3 " M Narasimiah & Bros	
4 " R A Rajgopal & M Shama Rao	
5 Mr N Varadarajan	

The contractor's tender also is herewith submitted for reference Sanction of Government to the acceptance of the tender may kindly be obtained and communicated at an early date so that the work may be started and completed early The cost will be met partly out of the Government grant under 30 Grants (1) for the current year and also next year and partly out of the Municipal contribution given for this work

TENDER FOR IMPROVING SUBMAIN NO 8
AND ITS CONNECTING STREET SEWER

- —

On the 31st March we submitted to you our Tender for improving Sub-main No 8 for your consideration

Since submitting the Tender we find that the prices of all materials have gone up considerably and the Mysore Stone Ware Pipes & Potteries Ltd , who quoted a rate on the date of tendering have subsequently increased their prices by 15% as per their letter No 2566 of the 15th instant addressed to me I enclose herewith the original letter received from them for your kind consideration Our tendered rates for the Pipe line work were calculated based on the original prices of the Mysore Stoneware Pipes & Potteries As there is a very little margin in the Pipe Line it is not possible for us to do the above work at our tendered rates in view of the fact that the Pipe cost has been increased by 15% Regarding supplies of Pipes from Jubbalpore as there is trouble about getting waggons it is not possible for us to get the pipes from outside Mysore State Further the Mysore Stoneware Pipes & Potteries Ltd , were delivering the pipes free at our workspot and now they want 5% extra for delivery of the pipes at our works spot

As waggons are not easily available supplies of cement are not adequate for works and further on account of the present international situation it is not possible for us to get enough labour to give the required progress

In view of the circumstances mentioned above we have to request you to kindly permit us to revise our Tender by 20% for the pipe line work over and above the tendered rates submitted to you on the 31st March As we had not anticipated increase in cost of Pipes etc , and as this increase is due to the present international situation we hope you will appreciate our difficulties and grant us the 20% enhanced rates for pipe line work for this present tender which is under consideration in your Offic

Thanking

136

Thanking you in anticipation and hoping that our request will be complied with

Improving Siddapur No 8 with its connected street sewers and providing additional sewer lines in Basavangudi, Gramaraupalya, Lovers Parapuram etc , Bangalore City

---

With reference to your memo No 81-86C dated 8th June 1942 forwarding for report a copy of the letter No L 11113/41 90-41-23 dated 31st May 1942 on the above subject from the Secretary to Government, Law Department, Bangalore, requesting to be intimated the amount the contractors will have to be paid in excess the amount already tendered by them for the pipe line work, I have the honour to inform that the excess amount will be very nearly Rs 11,800/- as per statement enclosed

Only one firm or contractors has tendered for the work and they are Messrs T A Rajagopal and Rama Rao While tendering for the work, they based their quotations on the rates offered by Messrs Mysore Stoneware Pipes and Potteries Co , for the stoneware pipes and specials to the Stores Purchase Committee for the year 1941-42 From April 1942, these rates have been revised as per fresh contract agreed to between the firm and Stores Purchase Committee A comparative statement of the rates offered by the firm and agreed to by the Stores Purchase Committee for the year 1941-42 and 1942-43 is also enclosed for favour of information

The tenderers Messrs Rajagopal and Rama Rao have in their applications already submitted prayed for increase by 25% over and above the tendered rates for the pipe line work The rates quoted by the tenderers for the several items of this work include besides the cost of pipes and specials, the cost of other materials such as cement, hemp etc , and labour charges which have remained more or less steady The contractors are therefore entitled to the

increase

Statement showing the approximate quantities of pipe lines of different sections to be laid in connection with the improvements to submain o 8 and connected street sewers and the extra rate to be paid owing enhanced rates for stone are materials

Tender for improvements to Sub Main No 8 and its connecting street sewers Bangalore City Drainage Division

---

Adverting to Government Order No L 4734-7/Ml 90-41-34 dated 12th November 1942 sanctioning the proposals of this office in regard to the acceptance of the only tender of Messrs R A Rajagopal and M Shama Rao, I have the honour to state that the Special Officer in his letter No 125 dated 23rd November 1942 intimates that the rates for manholes of different depths originally quoted by the above contractors are just the same, as those quoted by other tenderers recently approved for similar work in the same locality and that it would be unfair to the other approved contractors if Messrs Rajagopal and Shama Rao are given as much as Rs 30 or so per manhole The total excess that will have to be paid on this basis to the contractors will be Rs 11,040/- Even taking the schedule rate for the manhole and the present increased cost of manhole covers, the total cost wil be just about the same as the tenderers' original quotation Under the circumstances the Special Officer recommends the withdrawal of the payment of the difference of rates for manholes, retaining however the difference of cost as regards the pipes and specials which is reasnable Two statements in support of the above facts, received from the Special Officer are herewith enclosed for perusal

In this connection, it maybe stated that the recommendation sent to Government in this office letter No C 81-476 dated

dated 7th October 1942 for the payment of difference of rates fo the manhole covers also, was based on letter No 77 dated 17th September 1942 of the then Special Officer, Mr Seshadri Iyengar who supported the request of the Contractors in these words "Their request seems to be reasonable since the cast iron covers which used to cost Rs 22/- now cost Rs 50/- A copy of the letter is enclosed herewith for the information of Government

In view of the facts now brought to notice by the present Special Officer about the loss of Rs 11,040/- to Government the acceptance of the tender has not been comunicated to the Contractors Messrs Rajagopal and Shama Rao The Special Officer is of the opinion that if the reduced offer is not accepted by the Contractors and if fresh tenders are called for, there may be competitive tenderers unlike the present case where only one tender was received He also states that the work is not so urgent and can await a month's delay

Under the circumstances, I request you to be so good as to obtain and convey orders of Government in the matter

A copy of the letter No 125 dated 23rd November 1942 of the Special Officer with its enclosures in original are herewith attached for reference and return

I have the honour to be,

Sir,

Your most obedientservant,

for Director of Public Health

KAJ

Letter No 125 dated 23rd November 1942 from the Special Officer, Bangalore City Drainage Division, Bangalore, to the Director of Public Health in Mysore, Bangalore

---

Subject - Tender for improvements to submain No 8

With reference to your Memo No C 81-514 dated 16th November 1942 conveying approval of Government to the only tender of Mr R A Rajagopal I have the honour to state that the rates for manholes of different depths originally quoted by Mr R A Rajagopal are just about the same, as those quoted by other approved tenderers recently for similar work in the same locality A comparative statement is herewith given which will make this clear Another statement giving the rate for manholes even with the present increased cost of manholes C I covers as per the schedule rates is also herewith submitted and it will be seen that even this is just about the same as the tenderer quoted originally It will also be unfair to the other approved tenderers that working side by side and in the same locality they should get as much as Rs 30/- less than Mr Rajagopal There are as many as 338 manhole covers and 60 chamber covers involved and the total excess to be paid would thus be about Rs 11,040/- which I think is entirely uncalled for I therefore request in Government interests that a recommendation may be made to Government to withdraw the payment of the difference of rates for manhole covers approved by Government in para 4 of the Government Order No L 4734-7/M1 90-41-34 dated 12th November 1942, retaining however the difference of costs to be paid as regards the pipes and specials as in para 3 which is reasonable

Mr R A Rajagopal is the only tenderer for this work and if this reduced offer is not accepted by him, fresh tenders may be called for and I feel that there will be competitive tenderers for it When Mr R A Rajagopal tendered for it in the month of April last, there was war scare but conditions have improved now The work also is not so urgent that it will not stand a month's delay Early orders of Government may kindly be obtained in

94

in the matter The approved tender and comparative statement are herewith returned

Improving submain No 8 and laying connected street sewers

With reference to your memo No C 81-439 dated 29/31st August 1942, forwarding for report a copy of letter No L 7316/41 90-41-32 dated 27th August 1942 from the Secretary to Government, Law Department, Bangalore, I have the honour to inform that Messrs Rajagopal and Shama Rao, Contractors, are agreeable to take up the above work if the difference of rates on the pipes, specials and hemp as they existed at the time of submission of tenders and the time of acceptance of tender is paid to them in addition to their tendered rates for the particular items of work

The contractors have requested for the payment of difference of rates for the manhole covers also Their request seems to be reasonable since the cast iron covers which used to cost P 22/- now cost Rs 50/- Orders of Government are requested in this matter

---

Tender for improvement of sub-main No 8 and its connecting street sewers, Bangalore City

---

With reference to your D O No 155 dated the 13th January 1943, forwarding a copy of the Memo No 11551 dated the 7th January 1943 enclosing for report, copies of letters Nos C 81-559 dated the 24th December 1942 to the Chief Engineer, from the Director of Public Health and letter No L 5030/42 90-41 36 dated the 15th December 1942, from the Secretary to Government, Law Department, to the Director of Public Health on the above subject, I have the honour to state as follows -

The tenders for the improvement of sub-main No 8 and the connecting sewers in Bangalore City, were called for in March 1942 In response to the notification published in the Mysore Gazette, only one Firm of contractors Messrs R A Rajagopal & M Shamaiah Rao responded and submitted their tenders with their letter dated the 29th March 1942 (vide copy enclosed) Several other contractors got the tender forms from the office on payment of the prescribed fee of annas four per form but did not put in their tenders The only tender received for the work was submitted to the Government for consideration

After the submission of the tenders the contractors Messrs A Rajagopal and Shamaiah petitioned for higher rates by 20 per cent for the pipe line work in view of the manufacturers namely the Mysore Stoneware and Potteries, having raised their prices by 15 per cent for the stone ware pipes and specials while recommending for the higher rates it was pointed out that the pipe line work included besides the cost of pipes & specials the cost of other materials also such as cement, bricks, etc , and labour charges, which remained more or less steady at the then rates, recommended that the contractors were entitled to the increase of their tendered rates only on the different rates for the pipes and specials quoted by the manufacturers to the Stores Purchase Committee during 1941-42 and 1942-43 The excess amount payable to the contractors was worked out on this differential rates for the quantities of materials that had to be used on the work and pointed out to be very nearly Rs 11 800/- The Government were pleased to observe on this information that if the proposal equitable both to the Government and Contractor if the contract was accepted with the promise of the difference in rates on the materials as they existing at the time of the submission of the tenders, and the time of their acceptance, being paid to them and directed to ascertain and report the opinion of the contractors in the matter

At this stage, the contractors Messrs Rajagopal and Shama Rao, while agreeing to the proposals, represented that the prices of manhole covers had increased considerably, and prayed for the increase in their tendered rates for the construction of manholes also As a result of local enquiries regarding the prevailing cost of iron and the fact of having provided for the enhanced cost of manhole covers in the schedule for 1942-43, it looked to me that the enhancement prayed for by the contractors was reasonable

It may be stated here that for the work under reference and in the locality only one tender was received and there were no other tenders with which the rates could be compared At that time the benefit of comparing at least with the other quotations for similar work in other localities subsequently received from the Government with orders, was not available At the time the contractors put in their representations for the increase in their tendered rates, there was considerable scare that the price of iron

66

iron would go ~~enormously~~ abnormally nigh But subsequently the scare seems to have been abated and the prices instead of increasing have shown signs of steadiness This altered condition has enabled the Special Officer to refuse the payment of higher rates prayed for by them for the construction of manholes I would have myself taken similar action, had I been continued in the Drainage Division till then

It may also be stated here that if the contractors had insisted on the increase of Rs 28/- per cover as per their letter in spite of the subsequent steadiness of the market, it was quite possible for the Special Officer to refuse their demand, and take this item of work out of their contract and get it done by other agency at the prevailing rates as per their letter (vide copy enclosed) in which they had agreed to take the work either in whole or in parts This as well as the subsequent steadiness of the market, which could not then be foreseen and other commitments, should have made them to agree to take up the work at the tendered rates

---

Tenders for Improvement of Sub-Main No 8 and its connecting street sewers, Bangalore City

---

With reference to your D O No 155 dated the 15th January 1943, forwarding a copy of the Memo No 11551 dated the 7th January 1943, enclosing for report, copies of letters No S 31-559 dated the 4th December 1942 to the Chief Engineer, from the Director of Public Health and letter No H 5050/M1 90-41-36 dated the 15th December 1942 from the Secretary to Government, Law Department, to the Director of Public Health on the above subject, I have the honour to state as follows -

The tenders for the improvement of Sub-Main No 8 and the connecting sewers in Bangalore City, were called for in March 1942 in response to the Notification published in the Mysore Gazette, only one firm of contractors Messrs T Raja Gopal and Rama Rao responded and submitted their tenders with their letter dated the 29th March 1942 (vide copy enclosed) Several other contractors got the tender forms from the office on payment of the prescribed fee of annas four per form, but did not put in their tender The only tender received for the work was submitted to the Government for consideration

After the submission of the tenders the contractors Messrs T Rajagopal and Rama Rao petitioned for higher rates by 30 per cent for the pipe line work, in view of the manufacturers namely, the Mysore Stone Ware and Potteries, having raised their prices by 15 per cent for the stone ware pipes and specials While recommending for the higher rates it was pointed out that the pipe line work included, besides the cost of pipe and specials, the cost of other materials also such as cement, hemp, etc , and labour charges, which remained more or less steady It was, therefore, recommended that the contractors were entitled to the increase of their tendered rates, only on the difference of rates for the pipes and specials quoted by the manufacturers to the stores purchase Committee during 1941-42 and 1942-43 The excess amount payable to the contractors was worked out on this difference in rates for the quantities of materials that had to be used on the work and pointed out to be very nearly Rs 11,800/- The Government were pleased to observe on this recommendation that it is considered equitable both to the Government and contractor if the contract was accepted with the proviso of the difference in rates on the materials as they existing at the time the submission of the tenders, and the time of their acceptance, being paid to them and directed to ascertain and report the opinion of the contractors in the matter

At this stage, the contractors Messrs Raja Gopal and Rama Rao while agreeing to the proposals, represented that the prices of manhole covers had increased considerably, and prayed for the increase in their tendered rates for the construction of manholes also As a result of local enquiries regarding the prevailing cost of iron and the fact of having provided for the enhanced cost of manhole covers in the schedule for 1942-43, it looked to me that the enhancement prayed for by the contractors was reasonable

It may be stated here that for the work under reference and in the locality only one tender was received and there were no other tenders with which the rates could be compared, so that while the benefit of comparing at least with the other quotations for similar or in other localities subsequently received from the Government with orders, was not available at the time the contractors put in their representations for the increase in their tendered rates, there is considerable doubt that the price of iron would go abnormally high but subsequently the scare seems to have been abated and the prices instead of increasing have shown signs of steadiness This altered condition has enabled the Special Officer to refuse the payment of higher rates prayed for by

69

by them for the construction of manholes. I would have myself taken similar action, had I been continued in the Drainage Division till then.

It may also be stated here that if the contractors had insisted on the increase by Rs.28/- per cover as per their letter inspite of the subsequent steadiness of the market, it was quite possible for the Special Officer to reduce their demand, and take this item of work out of their contract and get it done by other agency at the prevailing rate as per their letter (vide copy enclosed) in which they had agreed to take the work either in whole or in parts. This was well as the subsequent steadiness of the market, which could not then be foreseen and other commitments, should have made them to agree to take up the work at the tendered rates.

ENCL:-

Letter dated the 30th March 1942 from Messrs. Rajagopal Chari Rao, Constructional Engineers, Rajah Naraja Road, Basavangudi, to the Special Officer, City Drainage Division, Bangalore.

--

I enclose herewith our tender for the improvement of Siddapur Main No.3 with its connected sewers. We request to kindly consider our tender favourably and give us the entire work or at least a portion of the work.

=======

Yours faithfully,

for Director of Public Health.

Dear Sir,

I am desired to request that it is unsatisfactory that there should be such an abnormal delay in furnishing the information called for in this office letter No 210026 of 27-3-44 and in subsequent reminders of 18-4-44 re the tender for the improvements of submarine No 8 etc in BC [illegible] and to request you to send the information with the utmost dispatch. The unjustifiable delay in sending the same is extremely unsatisfactory.

Yours faithfully,

To,

D O Letter No 419 dated 19th June 1944 from the Chief Engineer for Irrigation, to the Director of Public Health in Mysore, Bangalore

90

Explanation of Mr N R Seshadri Iyengar, Executive Engineer, re tender for improvements to sub main No * and its connecti stree t sewers, Bangalore City

Your memo o C 81-1553 o. 2nd June 1944 on the above subject I enclose herewith a copy of letter No 1435 dated 4-5-1944 from Mr N R Seshadri Iyengar, Executive Engineer, furnishing the particulars required by you

Letter No 1435 dated 4-5-1944 from the Executive Engineer, Irwin Canal Division, Mandya to the Superintending Engineer, Irrigation Circle

Tender for improvements to sub main No * and its connecting street sewers, Bangalore City

With reference to your o 1178 dated the 20th April 1944 forwarding a copy of letter o 81-1450/41-42 dated the 10th April 1944 from the Director of Public Health to the Chief Engineer of Mysore, I have the honour to inform you that no quotations were called for regarding the prices of man-hole covers from approved firms or from Stores Purchase Committee, but as a result of local enquiries regarding the prevailing cost of iron and the unsteadiness of the market, it looked to me then that the enhancement prayed for by the contractors was reasonable

In this connection, I may be permitted to represent that there was absolutely no other motive in having made the recommendation beyond the desire to have the tender settled and the work which was dragging on for months before taken up and completed early It was this desire that lead me to record my opinion just on the eve of my handing over charge to my successor The absence of any other motive will be clear by kind perusal of the correspondence I have had with the contractors on the subject

I request, under the circumstances, the Government will view the case sympathetically and pardon any hasty action in the matter if it is considered as such The record of my service of nearly 25 years and confidencial reports may also be taken into consideration and orders passed

Mr N R Seshadri, Executive Engineer in charge of the Bangalore City Drainage Division for having recommended higher rates for the manhole covers without due enquiry

B) WD Note No 2968 9/12 dtd 13 of the Chief Engineer of Mysore on the conduct of Mr Seshadri Iyengar in the above case

4) Correspondence ending with letter No 81-/588 of 23 6 dtd from the Director of P.W. in Mysore forwarding the explanation of Mr Seshadri Iyengar in the above matter

~~of above note No 2268 of 8 Dec 1943 of Chief Engineer~~

Order No :- 5979-82 (16/12/44)

In the first of the case above, Government sanctioned on the recommendation of the Director of P.W. to the grant of enhanced rates to the contractors referred to above in respect of the manhole covers forming part of certain improvements to the sub main No VIII & its connected street sewers relating to the Bangalore City Drainage. The Dir of P.W. subsequently reported that the rates sanctioned for the manhole covers was much higher than the rates paid for similar work in the same locality & that it would involve unnecessary loss of Rs 11,000 to Govt. The sanctions for the higher rates for the manhole covers was immediately called for from the Secretariat & the explanation of the Secretariat Engineer was called for on the matter

---

Order No L 5979-82- Ml-90-41-42

Dated, Bangalore, 16th December 1944

In the first Government Order read above, Government sanctioned, on the recommendation of the Director of Public Health, the grant of enhanced rates to the contractors referred to above in respect of the man-hole covers forming part of certain improvements to the sub main No 8 and its connected street sewers relating to the Bangalore City Drainage. The Director of Public Health subsequently reported that the rate sanctioned for the man-hole covers was much higher than the rates paid for similar works in the same locality and that it would involve unnecessary loss of Rs 11.040/- to the

the Government The sanction of the higher rate for the manhole powers was immediately withdrawn in the second Government Order read above and the explanation of Mr Seshadri Iyengar was called for in the matter

2 Both the Director of Public Health and the Chief Engineer are not satisfied with the explanation of the officer The Chief Engineer has observed that there were no sufficient grounds for recommending the payment of enhanced rates for manhole covers, that Mr Seshadri Iyengar should have made local enquiries for similar works under execution before recommending enhanced rates and that he has failed to realise his responsibility

3. Agreeing with the above opinions, Government direct that the next increment of Mr M A Seshadri Iyengar, Executive Engineer, be deferred for a period of three months
